Diabetes Prevention

LEARN ABOUT YOUR POTENTIAL
RISK FOR PREDIABETES.

Prediabetes is a reversible condition that affects millions of people – many of whom don't realize they have it.

Having prediabetes means your blood sugar levels are higher than normal, which can lead to type 2 diabetes. The good news is that it's reversible if discovered and managed early in your care.

To help you determine your risk, take our brief online questionnaire. We also offer these programs that provide support:

Online/mobile access

- Livongo® for prediabetes – gain access to digital tools and mobile access to a live coach and a community of support
- Case Specific Nutrition™ – virtual nutrition and online support programs

Log into highmarkbcbs.com and click on **Diabetes Prevention to learn more.**

And more. It's all included with your health insurance.

The Diabetes Prevention program is offered to members who screen positive for prediabetes and is covered if it is included as part of your health plan's preventive schedule.

Livongo is an independent company that provides a diabetes management program on behalf of Highmark.

Health benefits or health benefit administration may be provided by or through Highmark Blue Cross Blue Shield, Highmark Choice Company, First Priority Health or First Priority Life, all of which are independent licensees of the Blue Cross Blue Shield Association.

The Claims Administrator/Insurer complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
